# Ayan Majumdar

Date of Birth: Dec. 29, 1992

**Address:** Max Planck Institute for Software Systems (MPI-SWS) Building E1 5, Campus, Room 538, 66123 Saarbrücken, Germany

Personal Address: Bruchwiesenanlage 4, Wohnung 205, 66125 Saarbrücken, Germany

in @Ayan Majumdar

### **Education**

2021 - ongoing

Ph.D. in Computer Science

Max Planck Institute for Software Systems, Saarbrücken, Germany

Area: Machine Learning, Fairness, Accountability

Advisor: Prof. Dr. Krishna P. Gummadi, Prof. Dr. Isabel Valera

2017 - 2021

M.Sc. in Computer Science

Saarland University, Saarbrücken, Germany

Thesis: Generating Counterfactuals for Causal Fairness

Outline: Deep generative models and their implicit assumptions in generating counterfac-

tuals from observed data in the context of fairness.

Advisor: Prof. Dr. Krishna P. Gummadi, Prof. Dr. Isabel Valera

GPA: 1.2/1.0 (German Scale)

2011 - 2015

B.Tech. in Electronics & Communication

Heritage Institute of Technology, Kolkata, India

Project: Automated traffic detection using image processing

Outline: Utilize blob detection techniques for detecting traffic from video sequences.

Supervisor: Prof. Anindya Sen

GPA: 8.8/10.0

#### **Research Interests**

Trustworthy Machine Learning

Fairness, Explainability, Accountability, Robustness

Deep Learning

Generative Models, Neural Networks, Representation Learning

Machine Learning

Supervised, Semi-supervised, Self-supervised Learning, Causality

#### **Publications**

#### **Archival Pre-prints**

Nanda, V., **Majumdar**, A., Kolling, C., Dickerson, J. P., Gummadi, K. P., Love, B. C., & Weller, A. (2021). Exploring alignment of representations with human perception. *CoRR*, *abs/2111.14726*. (*under review*). arXiv: 2111.14726. Retrieved from ## https://arxiv.org/abs/2111.14726

#### **Under Review & Ongoing**

1 Rateike\*, M., **Majumdar\*, A.**, Mineeva, O., Gummadi, K. P., & Valera, I. (2022). Don't throw it away! The utility of unlabeled data in fair decision making. (*under review*).

# **Work Experience**

Oct. 2019 - Mar. 2021

#### Research Assistant

Max Planck Institute for Software Systems, Saarbrücken, Germany

Project: Exploring bias and fairness with deep generative models

Role: Lead project and discussions, design methodologies and experiments.

Supervisor: Prof. Dr. Krishna P. Gummadi

Apr. 2018 - Mar. 2019

#### Research Assistant

SFB1102, Saarland University, Saarbrücken, Germany

Project: Mutual Intelligibility in Slavic Languages

Role: Develop web-user studies, perform data processing for NLP experiments.

Supervisor: Prof. Dr. Dietrich Klakow

Jul. 2015 - Aug. 2017

### Systems Engineer

Infosys Ltd., Bengaluru, India

Role: Oversee functionality of SIP and VoIP in session border controllers.

Feb. 2016 - Nov. 2016

#### Research Assistant

IIEST, Shibpur, India

Project: Community-based Routing in Delay Tolerant Networks

Role: Implement a simulator for a novel community-based routing algorithm using social metrics for delay tolerant networks in post-disaster scenarios.

Supervisor: Raj Rakshit, Prof. Tamaghna Acharya

# **Teaching Assistance**

Summer 2021

Seminar on Machine-Assisted Decision Making, Saarland University

Summer 2019

Statistical Natural Language Processing, Saarland University

# Talks and Posters

2020

### Cornell, Maryland, Max Planck Pre-doctoral Research School

Saarbrücken, Germany

Counterfactual data generation using VAE

# **Relevant Coursework**

Graduate

Artificial Intelligence, Information Retrieval and Data Mining, Machine Learning, Statistical Natural Language Processing, Neural Networks, Computer Vision, Methods of Mathematical Analysis, Statistics with R, Human-centered Machine Learning, Machine Learning in Cybersecurity, Information Extraction, Seminar: Machine Learning

Undergraduate

Signals and Systems, Digital Signal Processing, Information Theory and Coding, Digital Electronics, Microprocessor and Microcontrollers, Data Structures, Object Oriented Programming, Embedded Systems, Database Management Systems

# **Other Relevant Projects**

Predicting the Vulnerability of Windows Machines to Malware

Outline: Predicted the vulnerability of Windows PCs to malware. Further details here.

■ Word2Mat: A New Type of Word Representation

Outline: Extend word2vec to embed words as matrices for improved contextuality. More details here.

Exploring Personalized Image Captioning

Outline: Studied Attend2You, a personalized image captioning method. Report can be found here.

# Skills

### Programming, Packages and Frameworks

Languages Python, R, Java, C, C++, MATLAB

Database | SQI

Machine Learning PyTorch, Keras, TensorFlow, NumPy, Scikit-learn, Pandas, SciPy, NLTK, Spacy

Trustworthy ML CleverHans, Foolbox, robustness, AIF360

Others Latex, Stan, HTML, CSS, Shell Scripting, Django

# **Software**

Operating Systems Linux, MacOS, Windows

# **Online Certifications**

Coursera

- 1. **Algorithms**: Algorithmic toolbox, Data structures, Graph algorithms, String algorithms
  - 2. **Machine Learning**: Machine Learning Foundations, Regression, Deep Learning: Sequence Models

## Other Academic Activities

- Attended conferences ICML 2020, NeurIPS 2021.
- Invited to (virtual) Microsoft Research conference Frontiers of Machine Learning, 2020.

# Language Skills

Native/Fluent English Bengali Proficient/Intermediate Hindi Deutsch

#### **Achievements**

- Infy Insta award for commendable performance in project, Infosys, India, 2017.
- Spot Award, Certificate of Appreciation for contribution to project, Infosys, India, 2016.
